### Notes

- Available as a kit
- Available as a special, just ask
- D In development

### Kit Construction

Multi layered laser or aircraft plywood (0.4 – 3mm), typically inner and outer layers cut and marked for detail with a structural core to allow for relief. Stainless steel axles, nylon and glass fibre axle boxes, wheels and couplings. Coupling height 24 mm above rails. All kits require paints and glue, which are not provided to finish.
